Protection For Drivers Involved In Accidents

In the U.S. today, it is likely that most of us will be involved in some type of auto accident in our lifetimes. In fact motor vehicle accidents are one of the leading causes of injury and death in this country. But recent advances in safety features and insurance coverage allow Pennsylvania motorists to minimize many of the risks and damages associated with auto accidents. Here are some ways to minimize the risks of driving and prepare for damages if an accident should occur:

- Always wear a seatbelt.
- If possible, drive a car that is equipped with airbags.
- Choose the full tort option of your automobile insurance policy to maintain your right to collect for pain and suffering, no matter how serious your injury. If you choose the limited tort option, you may limit your ability to collect for pain and suffering because the court will decide if your injury is deemed serious.
- Carry uninsured or underinsured motorist benefits to protect you in the event you are involved in an accident caused by someone who is uninsured or underinsured.
- Opt for income loss benefits to protect you if you are forced to miss work for an extended period of time.

NOTE: Pennsylvania insurance law requires that all vehicles, regardless of whether or not they are registered, be insured. In fact, if you have an uninsured vehicle in your household, you may even be jeopardizing your rights to certain insurance coverage you have for other vehicles.

What Should I Do If I Am Involved In An Accident?

If you are involved in an auto accident, follow these important steps to minimize injuries and damages and to increase your ability to realize the compensation you deserve.

- Stop immediately — no matter how minor or incidental the accident may appear.
- Call the police if anyone involved in the accident suffers injury or death or if the vehicles have significant damage.
- Get immediate medical attention for yourself or any other passengers who may be injured.
- Collect the names, addresses and telephone numbers of all drivers, passengers and witnesses.
- Collect the names of the insurance companies covering all of the vehicles involved.
- Write down the license numbers, makes, models and years of all cars involved.
- As soon as possible, contact your insurance company to report the accident and, if applicable, to obtain the necessary documents for processing medical bills for payment.

We suggest that you keep this information in a safe place, such as your vehicle glove compartment.
